EASTER SYMMETRY ACTIVITY

Draw the reflection of the other half of the Easter objects, using the line of symmetry.

HAPPY EARTH DAY

APRIL 22ND

TREES

Trees are living things. They are plants with a main trunk, a crown of foliage, and stand at least four meters tall.

TYPES OF TREES

Evergreen

Do not lose their leaves all at once and stay green year round.

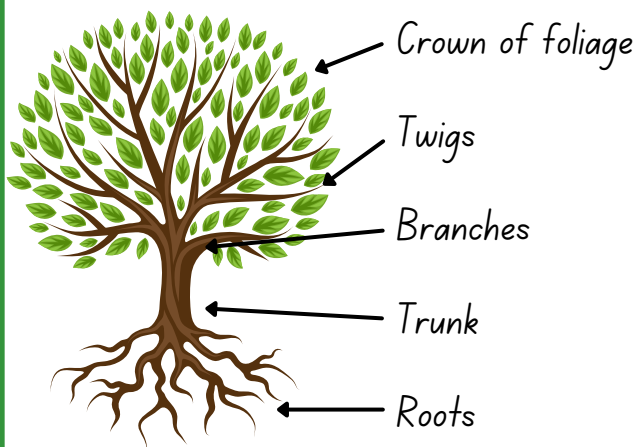

Deciduous

Leaves change colour in Autumn, before falling to the ground.

STRUCTURE

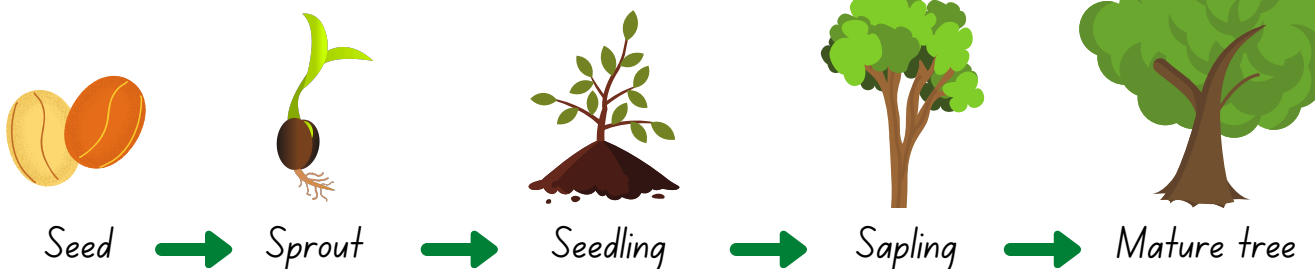

TREE USES

- Produce oxygen and clean the air
- Shade
- Shelter
- Animal homes
- Fuel for heating
- Timber for construction
- Source of food - seeds, nuts, fruit, bark, flowers, sap and pollen

LIFECYCLE

Simple Ways to Protect Nature

- Plant trees to reduce air pollution.
- Do not litter, especially plastic waste.
- Save water and energy in daily life.
- Recycle used items to prevent waste.
- Protect wildlife by preserving their habitats.

**Start with yourself, take real action!
Protect nature, save the Earth!**

APRIL FOOLS DAY

FUNNY REVENGE

by Matea
Jelušić

Every year, since I was born, my older brother always teases me for being named April! And each year I get one of the worst pranks on every April 1st! For example, slime dumped on me, water balloons filled with ICE COLD water thrown at me, and he even left a plastic snake under my pillow! Not this year, he he! I planned with my mom and dad that we'll leave him home alone, and "go" away to the supermarket. Instead...we'll prank him! Dad bought a sticker so he can put it on the window, it's called "creepy stalker"! It's a normal picture of man "peeking" into the window. Dad and I stuck it on the window, and he screeched like a little girl! I laughed my brain off. He was mad for the next couple of days, but he got over it.

EASTER TRADITIONS IN MY FAMILY

by Mia
Kuzmić

Decorating Easter eggs

On Easter we usually decorate Easter eggs with different colours and patterns.

Making breakfast

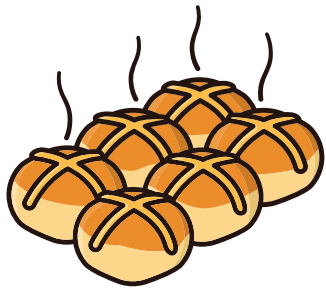

My mum prepares ham for breakfast. We also eat eggs, bread and radishes.

Cracking eggs

After lunch we sit together and crack the decorated eggs. I always win.

HOT CROSS BUNS

by Ana
Margetić

PART 1 – THE DOUGH

This is an easy method where you simply put all the dough ingredients in a bowl, then mix on speed 2 for 5 minutes OR knead by hand for about 10 minutes. Your dough is ready when it is smooth and elastic.

PART 2 – RISE

Once the dough is smooth, place it in a bowl, cover with cling wrap then leave it in a warm place until it doubles in size. This takes me 1.5 hours in a warm ~25°C/77°F location. My no-fail place is the dryer! Run it (empty) for 3 minutes, then turn it off and put the bowl inside. Warm and wind free – perfect dough rising conditions!

PART 3 – FORM BALLS

To form the balls that bake into smooth round Hot Cross Buns, I find the best method is as follows:

- Shape dough into log, cut into 12 pieces;
- Take a piece, then bundle it up like a moneybag – this will stretch one side into a smooth round dome; and
- roll/press/shape into a neat ball, then place the ball into the baking pan smooth side up.

PART 4 – RISE #2

Spray cling wrap with oil, then loosely drape over the buns. Leave for 40 minutes until they almost double in size – about 75% is enough.

PART 5 – HOW TO MAKE THE CROSSES FOR HOT CROSS BUNS

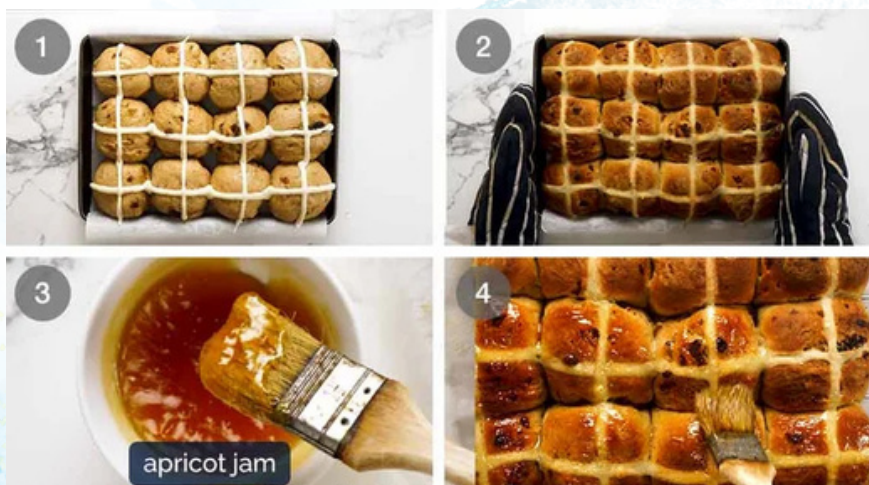

Simple mix of water and flour, the trick is ensuring it is the right consistency. Too thin, and it will run everywhere when it's in the oven. Too thick, and you end up with crispy, hard sprigs on the surface of your soft buns!

PART 6 – BAKE!

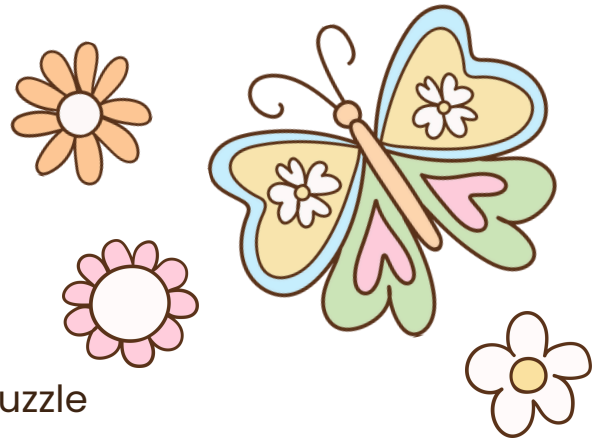

Bake for 22 minutes or until the buns are a deep golden brown. I find that colour is the best indicator for this recipe. Pale = undercooked. Burnt = 😞

PART 7 – GLOSS!

The lovely shiny finish on Hot Cross Buns is simply a mix of heated apricot jam and a touch of water. Just microwave to heat, mix until smooth then lightly brush onto the surface. Substitute with other jams, or honey, maple syrup, golden syrup or other shiny syrups.
